Purpose of this training program

Train Laborers to be a scaffold assistants or helpers. The training involves knowledge of material, handling of material and all safety around handling and stacking of material.

Benefits

Scaffolding is an industry with high risks. Training is a factor in the reduction of risks and increased safe production. A well trained individual can grow with the organization and become a valuable asset for the future. Training is an investment rather than an expense and is unquestionably a great tool in reducing accidents.
