OBJECTIVE OF THE COURSE

For scaffold erectors assistant- or helper. The training covers knowledge and handling of material and all safety aspects around handling and stacking of material

Benefits

Scaffolding is an industry with high risks. Training is a factor in the reduction of risks and increased safe production. A well trained individual can grow with the organization and become a valuable asset for the future. Training is an investment rather than an expense and is unquestionably a great tool one could offer to your employees.
